Internship

About me

A curious, creative and thorough guy with a great interest in photography, photo-editing, drawing and videography. Knowledgeable in technology and interested in computers, cameras and various digital tools. Media production is among the most fun there is - endless things to learn and exciting areas to explore.

Storyfire / Intern at a productioncompany

NOVEMBER 2019

A shorter internship period of 3 weeks where I got to help carry technology on recording, and log the material that was filmed in AVID, transcode and make a version with and without LUT in Davinci resolve to then sort and name / log the material before editing. I also got to help with subtitling some videos.

Edisen / Intern at a productioncompany

MARCH 2022 – JUNE 2022

At Edisen, I had my internship which was part of my university education from Falun. I got the role of editing assistant on a TV series thats in the works right now. The work involves logging and syncing material from set as well as sorting the material in AVID for the editors working on the production among many other tasks that an assistant editor needs to take on in the post-production process.

Work experience

Högskolan Dalarnas Bibliotek / Library attendant

AUGUSTI 2020 – APRIL 2022, FALUN

The work involved helping students borrow books through the library's system, package books to be sent to other libraries, sort books on bookshelves, and maintain the library's order.

EDISEN / Assistant video editor

JUNI 2022 - NU 2022, STOCKHOLM

At Edisen, I have continued my work as an editing assistant for the same TV series as i did in my internship. The work involves logging and syncing material from the recording as well as sorting the material in AVID and other assistance to the TV series' editors and the post-production team.
